Lecture & round tables on
Ocular surface imaging
Lens surgery & iris prosthesis
Corneal & ocular surface surgery

19 of May Ocular surface imaging

Lecture Session 10.30-12.00 CET

Abigail Kaye – In vivo confocal microscopy

Marcus Ang – Anterior Segment OCT angiography

Bernhard Steger – Ocular surface angiography

Marya Monsee – Clinical utility of genetic testing

Live discussion with all speakers

Round table – 16.00-17.30 CET

Panellist: N.Lagali, E.Landsend, S.Hau, M. Ang, M.Parekh, B.Steger

20 of May - Lens surgery & Iris prosthesis

Lecture Session 10.30-12.00 CET

Luca Pagano – Lens calculation in ocular surface disease

Kunal Gadhvi – Cataract surgery in ocular surface disease & management

Alejandra Daruich – Artificial Iris and lens implant

Mario Romano – Management of complicated cataract surgery & secondary lens implant

Live discussion with all speakers

Round table – 15.30-17.00 CET

Panellist: M.J. Tassignon, D. Bremond-Gignac, M. Monsee, A.Daruich

21 of May Cornea and ocular surface surgery

Lecture Session 10.30-12.00 CET

Sajjad Ahmad – Limbal stem cell transplant

Mor Dickman – Corneal transplant

Jose Alfonso & Luis Fernandez Vega Cueto – Endo K Pro

Colin Willoughby – Corneal Gene Therapy in Aniridia

Live discussion with all speakers

Round table – 15.30-17.00 CET

Panellist: SB. Kaye, S. Ahmad, C. Cursiefen
